

ALDRICH ORTHODONTICS

Dell S. Aldrich, D.D.S., M.S. Specialist in Orthodontics

January 26, 2011

RE: Andrew Pallos, D.D.S.

Dear Admitting Staff:

Although I have written many letters of recommendation, none delight me more than this one for Dr. Andrew Pallos. I consider it an honor and privilege to convey his sterling qualities of leadership and supervision.

Through the years I have seen Dr. Pallos in action as physicians and dentists have looked to him for advice and direction regarding dental and legal matters because of his extensive experience with attorneys and the legal system. I particularly respect his no nonsense leadership skills and ability to get the job done right the first time.

His calm demeanor and persuasive guidance have been key in dealing with high powered and highly qualified doctors and their staff. I'm talking about M.D.s with international reputations and many degrees beyond their original doctorate degree. They turned to Dr. Pallos for leadership, advice and guidance for conferences here in California, Arizona and New York. Dr. Pallos serves as a Visiting Associate Professor for an international college based in New York, and organizes seminars and workshops for the college providing postgraduate continuing education for M.D.s and D.D.S.s. I have worked with him and been amazed to see this humble servant deal calmly and firmly with the many important issues that arise.

Because of Dr. Pallos' exceptional character and integrity, the more you get to know him the more you appreciate his skills. I have seen many doctors come to him seeking his care and direction for managing their own needs and issues. By hiring Dr. Pallos as a Supervising Dentist, you will receive a dentist who is held in highest esteem by his professional colleagues.

I know the above from years of personal experience and one-on-one interaction with Dr. Pallos. I have taught at USC Dental School for many years both full and part time, and continue to choose Dr. Pallos as my dentist. I served as a dentist in the military (Captain US Army) preparing soldiers for combat duty, which gives me additional insight into Dr. Pallos' qualifications. In Dr. Pallos you will have a great Supervising Dentist, mentor, legal adviser and leader.

Most Sincerely and Respectfully Yours,

Dell S. Aldrich, D.D.S., M.S.
